

How to produce the Hood of the Dark Arts Warrior:

1/ Place the Pancho or Malta over your head, making sure the long side or one of the four corners is facing the front. This keeps the shorter lengths at the shoulders for greater manoeuvrability, and sword presence.

2/ Now find the centre of the Shemagh or Scarf and place this on top of your head draping the longer sides evenly over each shoulder.

3/ Pull the Shemagh or Scarf back slightly from the face until finding the correct view point preferred, this is usually with the edge of the scarf lined up with the Eyebrows or Eyelids.

4/ Now place the Shimenawa Rope over your head and scarf to form the hood worn by the Dark Arts Warrior. Make small adjustment here if necessary so that there is no skin visible that may reflect light, and the eyes are shadowed by the cape and hood.
